I am absolutely in awe by this incredible undertaking May God bless you all. You know this is close to my heart I just did not have the resources to do it. I am smiling now because I am truly a believer now that if you want something bad enough even if you can't do it, once it's out there someone whose heart is in sync with yours that do have the resources, will make it happen. I am on the team and I am an evangelist for this. I saw on TV recently a little 7 yr old girl Killed I immediately burst into tears that was the day after I saw this from one of my mentors Paul Darby I actually flew into the room got my wife's card signed up. People information applied is power Get this now for the sake of YOUR OWN DAUGHTERS! P.S. Predators, Beware You can't hide any more GET THE HELP YOU NEED and leave our kids alone.

For 9 years I worked as a Family Law expert in the field of child abductions. Usually the child or children were abducted across State lines or internationally by the non-custodial parent. Often there were grave concerns for the physical, psychological and moral safety of abducted child. Just imagine how frightening this can be when it occurs at the hands of a stranger! I only wish the "Save Your Daughters" project was around all those years ago. Still, it is finally here and "SYD" should be a Godsend for parents of both girls AND boys, as much of the information applies to both genders. More important than that, it will go a long way towards protecting your children from physical and moral harm in today's uncertain world.

Your email arrived moments after hearing that the little girl's body was found in Florida. I was shocked to hear that more than 125 sex offenders lived near this little girl's home. As a dad of a daughter starting to look for a college this opportunity really struck home as something I MUST do to protect her. I joined this program to get the information to do that, and to share this information with all of the dads I know.

As a Mother of 2 Daughters and Grandmother of 7 Granddaughters I am always preaching (that's what the older ones say) about being safe. This a wonderful site and the importance of this is just too great to say. You hear everyday of something happening to Children across this nation and it is so sad. I pray every day for my Children and Grandchildren. I would not know what to do if something happened. That is why this site is so welcomed to teach and educate. So, our Daughters can be saved. Thank You, Melinda Martin

WOW!!! Finally a program we can all be proud of. Paul, Thank you. Out of all the programs that I have seen or been a part of, "Save Your Daughters" is by far, the greatest on or offline opportunity available. This program is so much more than just a new business, it's a once in a lifetime chance to be a part of a grassroots movement, that will change the public's awareness and actions, when faced with these issues. Again, I want to thank you Paul Darby, for giving us the tools, the resources, the education, and the opportunity to become a member of this.

My name is Linda Hurst-Strayhorn. I have a very personal reason for recommending this information. My Niece was Kidnapped, Raped and Murdered in 1993. She was 11 years old the person that did this to her was a neighbor and a known child molester from another state. Information and website movies can save lives.

-Linda Hurst-Strayhorn

Thank you Paul. Save Your Daughters is an excellent program, that unfortunately we need. Some people just want to ignore the fact that our children are at risk. If we ignore the risk, we are subject to being victimized by it. You have put together a program that every parent should invest in today. We all owe our children the best protection we can provide. Save Your Daughters is one part of that protection. We need to be aware of the dangers, teach the children, and become more aware of our neighbors. You owe it to your children to provide them safety. Start here. This is one package that will help you.

After reviewing all of the videos and workbooks and must congratulate you for your for providing a very compelling program. I can't wait to spread the word on how to protect our families. It is information that should have been out there along time ago! Again Thanks and keep providing us with more information.

Hi to every parent, Speaking as owner Save my daughter Is the best product out there. Our children represent our future leaders of our country. This is why every one loves this grate product it is going to help save our Nation. I believe this information we have in our hands today will help us take our nation back tomorrow. My family as well as yours will be safe. We can now reach out to new source of knowledge and cultural experiences and not leave our children / family vulnerable to exploitation and harm by computer-sex offenders and ever thing that is going on out

-Charlie Mitchell

I am deeply thankful for this program, It's about time someone like Save Your Daughters is bringing all the decent people together to fight those in our society who are sick in their behaviors and need to be taken out back for a good thrashing or better yet as it says in the Bible, that it would be better they had a millstone tied around their necks and drowned in the sea for hurting our daughters and our children. I support you 100% percent; keep up the good work Paul.

-Paul Vieau

Paul Darby has truly provided an outstanding resource that every person caring for the safety and wellbeing of their daughters will cherish for the advice given here. Thank You, Mr. Darby.

THE SYD Program is a great idea and deals with issues of security which I consider to be one of the basic needs of an individual according to Marslow's hierarchical needs. I think I am in love with this program and I think it will change the quality of life for many people, thanks.

The Save Your Daughters Campaign is one of the best programs to be developed in a long time. With the present climate of abductions, assaults and general attacks on innocent people and children this program could not have been release at a better time. The information contained is without a doubt going to save many lives and much heartbreak, I strongly recommend every one should get this valuable information, and then they can rest easy knowing their loved ones are armed with the best information to make their family as secure and safe as possible! Kindest regards

In September of 2005, I lost my precious daughter Alisha to a rear skin disease. Four years later, and the pain of that loss is still felt. My greatest wish was to be able to prevent my daughter from succumbing to the unknown. That's why Save Your Daughter (SYD) appeals to me! There are many unknown predators that pose a danger to our daughters. I appeal to all fathers and mothers globally to take the SYD project seriously. Equip yourselves with this knowledge of how to protect our love ones, so we can have them to love and cherish for as long as we live! God bless you all.

Finally, a product that I feel PROUD to share with people, including me love ones and friends. No, ESPECIALLY my loved ones and friends! There are very people who couldn't utilize this product. Sure, it makes total sense if you have kids, but it also makes sense if you are just a person living on this planet today! We ALL need to raise our conscious level in learning how to be more safe and aware. Here is where you get will learn it.

Hi Paul, The Save Your Daughters program is tremendous and just like I emailed you its right up my alley. Everybody I show this to gets excited! (Jumping up & down emoticon) I have been emailing like crazy and getting good responses. I built a new toolbar expressly for Save Your Daughters that will have the amber alert ticker in it. Got a meeting to go share the Save Your Daughters to!

I have studied several Martial Arts styles over the past 26 years. My Teachers are some very well known masters worldwide. I have helped several students receive their black belts and taught numerous self defense classes over the years. I received an email from Paul Darby to check out Save Your Daughters Website. I was immediately convinced that this is the real deal. The videos are outstanding, professionally made. This is one of the best products I have seen! I believe the price is way too low for the content. I am recommending this to all my students. Great Job Unimax!!

- John Nolan

After spending several years as a volunteer with child find, I have found this program to be far superior to all else out there. This is the absolute best way to protect your family members... Can you truly place a value on the lives of your family members? I would say that each is priceless.
